EUROPEAN
CONGRESS OF
RHEUMATOLOGY
—
12–15 JUNE

European Congress of Rheumatology

12 – 15 June 2024

Vienna, Austria

Official Programme

Wednesday 12 June 2024

Opening Plenary Session

"Asymptomatic" Hyperuricemia: Innocent bystander or menacing foe?

Advancing Rheumatology through Open Science

Effective Collaboration in Research

Innovation in Rheumatology Education

HPR Welcome session: what can EULAR do for you?

Inflammatory Myopathies

JAK Inhibitor Special Warnings: can observational data debunk an RCT?

Management of Still's Disease across the Life-Span

Patient Involvement in Research: challenges in AI and medical devices development

X-ray of hands and feet in RA, PsA and OA

Capillaroscopy

Inflammaging and Cellular Senescence in Rheumatic and Musculoskeletal Diseases

Difficult to Manage axSpA and PsA

CAR T-cells to treat RMDs

Lupus: what's on the horizon?

Sjögren's Syndrome

Difficult Questions in Osteoporosis

How to Prevent Infections in Patients with Rheumatic Diseases?

Taking a Holistic View: Multidisciplinary care in rheumatology

The Gut-Joint Axis

Challenging Patient Journeys: the value of multidisciplinary team care for people with RMDs
75th Anniversary of Glucocorticoids - what have we learnt?

Reproductive Health

EULAR Highlights

Thursday 13 June 2024

Brain Ear Eye Syndromes

Extracellular Vesicles in Rheumatology

Fatigue, Pain and Opioids

From Anxiety to Empowerment: Minimising nocebo effects in Rheumatology

From Causal Inference to the World of Systematic Literature Reviews

From Child to Adult in One Day: Children and Transition

How to Treat Difficult-to-Treat Rheumatoid Arthritis?

IgA-vasculitis across the life-span

IgG4 related disease

Implementing Patient and Public Involvement in Medical Education

In Dialogue with the Expert: Health Technology Assessment

Macrophages in Rheumatoid Arthritis: again and again

Managing Osteoarthritis: there is always something to do!

Patient Tailored Pain Management in RMDs

Post it or Perish: Promoting research in the digital age

Moll & Wright PsA 50th Anniversary Session

RA Prevention: what have we learnt, and where do we go next?

Raynaud and GI Manifestations in Scleroderma

Research in Rheumatology: EULAR Research and FOREUM

Reviewing the Technique, Pitfalls and Doubts on Urinary Sediment Examination

Sjögren's Syndrome

Skin and wound issues in individuals with inflammatory arthritis: What you need to know

SPA and Imaging

Spondyloarthritis

Tapering and Withdrawal of Treatment in RMDs

What we all need to know about disability

The Role of Imaging in Assessment of Lung Involvement in RMDs

Therapeutic Drug Monitoring of TNF inhibitors: to monitor or not?

Ultrasound for the Rheumatologist apart from Joints

Ultrasound-guided procedures

Vasculitis Mimickers

VEXAS Syndrome

What you wanted to know about Mitochondria

Women Rising in Top Positions: Female leadership

Working with an RMD: Make RMDs work

Coming together is a beginning, keeping together is progress, and working together is a success: Rheumatology interprofessional collaboration

How to Prevent Infections in Patients with Rheumatic Diseases?

Capillaroscopy

A&R-ARD Session

Hand Osteoarthritis

How to Manage Pregnancy in SLE

How to Treat Anti-Phospholipid Syndrome

Friday 14 June 2024

Metabolic Reprogramming in Autoimmunity

Unravelling the Extracellular Matrix

ANCA Associated Vasculitis

Axial Involvement in PsA and SpA

Cardiovascular Comorbidity

Digital Health

Discovery in Joint and Skin Disease: a for(e)um on Psoriatic Arthritis

DMOADs and Pro-regenerative Therapies for Osteoarthritis: where are we?

New Educational PReS Initiatives

Family Planning, Fertility and Pregnancy in RMDs

Fatigue Management in Rheumatology: what is helpful?

From Generic to Discipline-specific HPR Competencies

How to treat opportunistic infections in RMDs

Joint Examination: Basics of ultrasound screening for HPRs in inflammatory arthritis

Long COVID and Fibromyalgia

Macrophage Activation Syndrome

Management of difficult-to-treat Behcet's Disease

Managing Organ Manifestations in Sarcoidosis

Moving on Solid Ground: testing physical performance

MRI facilitating Management Decisions in RMDs: focus on extremities

Myositis vs. Myopathy

Communication: Narrative Medicine

Newly Diagnosed with an RMD: what should I know?

Novel Mechanisms of Pain Sensitization

Optimising the Patient Pathways: Integrated care models in Rheumatic and Musculoskeletal Diseases

Osteoporosis in Rheumatology

Planetary Health

Polymyalgia Rheumatica

Precision Medicine and Novel Targets in SSc

Rheumatoid Arthritis

Remote care: Does evidence meet the gut feeling?

Synovial Fluid Analysis

The Importance of Young Societies

Things we learn from a Pathologist

Amyloidosis

How to Treat Difficult-to-Treat Rheumatoid Arthritis?

Raynaud and GI Manifestations in Scleroderma

Difficult Clinical Examination: How to conduct a MMT-8 and a Rodnan skin score

How to set up and run a Multidisciplinary Clinic

Approaches to "-omics" data analysis in Immunology and Rheumatology

Approaching Primary Care and Rheumatology: from early referral to disease management

Autoinflammation: Crossroads of Autoinflammation and Autoimmunity

EULAR Recommendations I

Saturday 15 June 2024

Building In Vitro Organs

EULAR Recommendations II

Menopause and the impact of Hormonal Changes in Rheumatology Health: "The variable whose time has come"

Mental Health and Wellbeing: behind the pain

Obesity in Rheumatic Diseases: the science, the food, and the need for change

Osteoarthritis or Psoriatic Arthritis?

Osteoporosis: new and tried and true

Were we wrong for 20 years regarding the possible increased risk of cancer with anti-TNF?

What Autoantigens do T cells really see in the Rheumatic Diseases?

Autoinflammatory Diseases

Management of Crystal Arthropathies

Checkpoint Inhibition and Autoimmune Issues

Exploring Self-Management: definitions and life

Interstitial Lung Disease: from diagnosis to management

Monogenic Disease and Future of Gene Editing in Rheumatology

Promoting Lifestyle Factors in RMDs

Rare Vasculitis

Spotlight Consultation: challenging problems resolved onsite

The Big Challenge: living with an RMD and experiencing cognitive dysfunction

The EMEUNET Rheumatology Quiz

75th Anniversary of Glucocorticoids - what have we learnt?

Reproductive Health

EULAR Highlights

Please note all times are in CEST

Session Date	Session Name/Title	Session Start	Session End	Session Description	Session Type	Role	Firstname	Surname	Country	Presentation Title	Start	End
12/06/2024	Opening Plenary Session					Speaker	Daniel	Aletaha	Austria	Opening by the President of EULAR	13:00	14:00
12/06/2024	"Asymptomatic" Hyperuricemia: Innocent bystander or menacing foe?	14:15	15:30	Asymptomatic hyperuricemia is thought to not warrant specific therapy due to it being considered benign. However, emerging evidence has raised questions about potential harmful effects of hyperuricemia. In this session we will understand the long-term consequences of asymptomatic urate deposition in the joint, critically appraise the evidence regarding urate-lowering therapy for renal disease and discern the extent to which	Clinical Science	Convenor	Tuhina	Neogi	United States of America			
						Chair	Frederic	Lioté	France			
						Chair	Francisca	Sivera	Spain			
						Speaker	Mariano	Andrés	Spain	Asymptomatic ultrasonographic urate deposition in the joint -- are there long-term consequences?	14:15	14:35
						Speaker	Nicola	Dalbeth	New Zealand	Is there a role for urate-lowering therapy to ameliorate renal disease?	14:35	14:55
						Speaker	Abhishek	Abhishek	United Kingdom	Does hyperuricemia contribute to cardiovascular disease?	14:55	15:15
						Abstract Presenter				Abstract Slot	15:15	15:25
						Closing	Chairs			Q&A and Closing	15:25	15:36

				hyperuricemia contributes to cardiovascular disease.								
12/06/2024	Advancing Rheumatology through Open Science	14:15	15:30	Throughout this Innovation session we become familiar with the various aspects of open science including data sharing as well as learn about the advantages and disadvantages of open science and learn how open science may advance the field of rheumatology.	Innovation	Convenor	Tue Wenzel	Kragstrup	Denmark			
						Chair	Muhammad	Shipa	United Kingdom			
						Chair	Luis Fernando	Perez	Netherlands	Welcome (Introduction)	14:15	14:20
						Speaker	Dirk	Radstake	United States of America	Open Science in Drug Discovery	14:20	14:35
						Speaker	Marienke	Van Middelkoop	Netherlands	Successful data sharing in rheumatology: the OA trial bank	14:35	14:55
						Speaker	Michael	Sundström	Sweden	Open science projects in the Structural Genomics Consortium	14:55	15:15
						Speaker	Felice	Rivellese	United Kingdom	Publicly available omics data	15:15	15:30
12/06/2024	Capillaroscopy	14:15	15:30	Participants will learn how capillaroscopy can be applied to detect very early abnormalities as well as advanced stages of CTDs. Learners will be instructed to use	Practical Skills (Hands-on)	Convenor	Caroline	Ospelt	Switzerland			
						Chair	Maurizio	Cutolo	Italy			
						Chair	Vanessa	Smith	Belgium			
						Speaker	Maurizio	Cutolo	Italy	Nailfold videocapillaroscopy for the "very early"	14:15	14:25

				a fast track algorithm in order to differentiate a "scleroderma pattern" from a "non-scleroderma pattern". Applications of capillaroscopy in adults and children will be discussed and tools and methods for the evaluation explained. The space in this room is limited, there is another Capillaroscopy session taking place in Strauss 3 on the 15th June at 13:30 - 14:45.						detection and the followup of the microvascular damage in connective tissue diseases		
						Speaker	Vanessa	Smith	Belgium	EULAR condensed standardised evaluation of capillaroscopy and the fast track algorithm to differentiate a "scleroderma" from a "non-scleroderma" pattern	14:25	14:35
						Speaker	Francesca	Ingegnoli	Italy	Adult versus children nailfold videocapillaroscopy patterns in connective tissue diseases	14:35	14:45
						Speaker	Ariane L.	Herrick	United Kingdom	The most reliable tools and methods and their combinations for the evaluation of the microcirculation in systemic sclerosis	14:45	14:55
						Demonstration	All speakers and chairs			Questions and answers and live demonstration with patients	14:55	15:30
12/06/2024	Difficult to Manage axSpA and PsA	14:15	15:30	To understand the concept of difficult to manage; to obtain insights into patients	Challenges in Clinical Practice	Convenor	Uta	Kiltz	Germany			
						Chair	Helena	Marzo-Ortega	United Kingdom			

				characteristics, to understand the unmet needs at patient and physician level.		Chair	Olivier	Fakih	France			
						Speaker	Andre	Ribeiro	Canada	Junior Case Presentation: Spot on treatment failure in PsA: where are the management problems?	14:15	14:25
						Speaker	Vinod	Chandran	Canada	Spot on treatment failure in PsA: where are the management problems?	14:25	14:50
						Speaker	Adham	Rashid	Germany	Junior Case Presentation	14:50	15:00
						Speaker	Martin	Rudwaleit	Germany	Spot on pain in axSpA: where are the management problems?	15:00	15:25
						Closing	Olivier	Fakih	France	Q&A and Closing	15:25	15:30
12/06/2024	Effective Collaboration in Research	14:15	15:30	Delegates will learn about different types of research collaborations, and how they advance the field of rheumatology. The session will focus on which factors contribute to successful	EMEUNET Presents	Convenor	Tue Wenzel	Kragstrup	Denmark			
						Chair	Sytske Anne	Bergstra	Netherlands			
						Chair	Fabian	Proft	Germany	Welcome (Introduction)	14:15	14:16
						Speaker	Rachel	Knevel	Netherlands	How to establish a successful European research consortium?	14:16	14:35

				research collaborations, and how you can apply this in your own work.		Speaker	Pedro Machado	United Kingdom	Collaborating in times of crisis: the successful road to rapid results from The Global Rheumatology Alliance	14:35	14:55
						Speaker	Marie-Elise Truchetet	France	When collaboration is the only way: the importance of long-lasting research collaborations in rare diseases.	14:55	15:15
						Speaker	Claire Daien	France	EMEUNET Research Speed Dating - What is it? Impressions of 2 successful years	15:15	15:30
12/06/2024	HPR Welcome session: what can EULAR do for you?	14:15	15:30	Delegates will be able to identify learning opportunities for HPRs in the EULAR congress programme and discuss various ways of contributing to the EULAR and HPR strategies 2024-2028 as well as identify new networks to engage in HPR activities.	Health Professionals in Rheumatology (HPR)	Convenor	Mwidimi Ndosi	United Kingdom			
						Chair	Tanja Stamm	Austria	Welcome (Introduction)	14:15	14:20
						Chair	Ricardo J. O. Ferreira	Portugal			
						Speaker	Mwidimi Ndosi	United Kingdom	What's on the menu? How to get the most from this year's Congress programme.	14:20	14:35
						Speaker	Jette Primdahl	Denmark	What is what we are trying to move forward - insights into our EULAR strategy	14:35	14:50
						Speaker	All speakers and chairs		Small group discussions on HPR topics of interest	14:50	15:25

						Closing	Ricardo J. O.	Ferreira	Portugal	How we can stay in touch	15:25	15:30
12/06/2024	Inflammaging and Cellular Senescence in Rheumatic and Musculoskeletal Diseases	14:15	15:30	This session will discuss inflammaging and cell senescence in RMDs and will provide insights on possible novel therapeutic targets. During ageing low-grade inflammation, called inflammaging, develops, contributing to the pathogenesis of age-related diseases.	Basic and Translational Science	Convenor	Cosimo	De Bari	United Kingdom			
						Chair	Dirk	Elewaut	Belgium			
						Chair	Daniele	Noel	France			
						Speaker	Cornelia	Weyand	United States of America	Inflammaging in musculoskeletal disorders	14:15	14:45
						Speaker	Richard	Loeser		Cell senescence in musculoskeletal disorders	14:45	15:15
						Abstract Presenter				Abstract Slot	15:15	15:25
						Closing	Both chairs			Closing	15:25	15:30
12/06/2024	Inflammatory Myopathies	14:15	15:30	In this session the idiopathic inflammatory myopathies (IIMs) will be presented based on recent insights into pathogenesis and how these lead to better diagnostics and therapeutics. The session aims to help delegates	From Bench to Bedside	Convenor	Ronald F.	van Vollenhoven	Netherlands			
						Chair	Maryam	Dastmalchi	Sweden	Introduction	14:15	14:20
						Chair	László	Czirják	Hungary			
						Speaker	Angeles Shunashy	Galindo-Feria	Sweden	Update on the pathophysiology of the IIMs	14:20	14:40
						Speaker	Conny J.	van der Laken	Netherlands	Biomarkers and Imaging for the	14:40	15:00

				understand the latest insights into the pathophysiology of the IIMs and to be able to use the most recent diagnostic tests and imaging modalities for IIMs as well as gain insight into current and evolving therapies for IIMs.						inflammatory myopathies		
						Speaker	Britta Maurer	Switzerland		Current and future therapies for the inflammatory myopathies	15:00	15:20
						Abstract Presenter				Abstract Slot	15:20	15:30
12/06/2024	Innovation in Rheumatology Education	14:15	15:30	The aim of this session is to understand how to cultivate stronger mentor – mentee relationships for achieving personal and professional objectives in the new era. To discuss how a good rheumatologist can be prepared, including training, competences and exams. To understand the role of AI tools in education and leaning and to	EULAR Projects	Convenor	Simona Rednic	Romania				
						Chair	Simona Rednic	Romania				
						Chair	Christopher John	United Kingdom				
						Speaker	Gerd R. Burmester	Germany	How to Cultivate Stronger Mentor–Mentee Relationships - mentor's perspective	14:15	14:30	
						Speaker	Silvia Piantoni	Italy	How to Cultivate Stronger Mentor–Mentee Relationships - mentee's perspective	14:30	14:50	
						Speaker	Christopher John	United Kingdom	How to build a rheumatologist ?	14:50	15:10	

				build confidence to use them in teaching.		Speaker	Florian	Berghea	Romania	Artificial intelligence in medical education : what do we need to know now that AI knows everything?	15:10	15:30
12/06/2024	JAK Inhibitor Special Warnings: can observational data debunk an RCT?	14:15	15:30	In this session, delegates will understand the regulatory measures to minimise risk of serious side effects (major adverse cardiac events, venous thromboembolism and malignancy) with JAK inhibitors for chronic inflammatory disorders. Additionally we will aim to understand the data from the ORAL Surveillance study and data from observational studies and clinical trial extension studies.	EULAR Debate	Convenor	Tue Wenzel	Kragstrup	Denmark			
						Chair	Kim	Lauper	Switzerland			
						Chair	John	Cush	United States of America			
						Speaker	Janet	Pope	Canada	Data in support of regulatory safety measures	14:15	14:35
						Speaker	David	Liew	Australia	Data NOT in support of regulatory safety measures	14:35	14:55
						Speaker	Janet	Pope	Canada	Defense: data in support of regulatory safety measures	14:55	15:05
						Speaker	David	Liew	Australia	Defense: data NOT in support of regulatory safety measures	15:05	15:15
						Closing	Kim	Lauper	Switzerland	Debate and Closing	15:15	15:30
12/06/2024	Management of Still's Disease	14:15	15:30	This session will consider the management of	Clinical Science	Convenor	Dirk	Foell	Germany			

	across the Life-Span			Still's disease across live-span by considering clinical manifestations in children and adults as well as discussing treatment in children and adults. We will start with a presentation of EULAR and the Paediatric Rheumatology European Society's (PReS) recommendations for the management of Still's Disease.		Chair	Claudia	Bracaglia	Italy			
						Chair	Eugen	Feist	Germany			
						Speaker	Bruno	Fautrel	France	The EULAR/PReS recommendations on the management of Still's disease	14:15	14:35
						Speaker	Stefan	Vordenbäumen	Germany	Knowledge gaps in real-life management of AOSD	14:35	14:55
						Speaker	Jordi	Anton	Spain	Knowledge gaps in real-life management of SJIA	14:55	15:10
						Abstract Presenter				Abstract Slot	15:10	15:20
						Abstract Presenter				Abstract Slot	15:20	15:30
12/06/2024	Patient Involvement in Research: challenges in AI and medical devices development	14:15	15:30	In this session, delegates will explore patient involvement in AI research and patient involvement in medical devices research. As well as learning how to identify barriers to patient involvement and	PARE	Convenor	Elsa	Mateus	Portugal			
						Chair	Paul	Studenic	Austria			
						Chair	Wendy	Olsder	Netherlands	Introduction	14:15	14:16
						Speaker	Peter	Böhm	Germany	PRP involvement in research on AI and medical devices - opportunities and barriers	14:16	14:36

				discuss solutions.		Speaker	Jenny Christensson	Sweden	Patients' involvement in co-creation and development of innovative care	14:36	14:51
						Speaker	Nele Caeyers	Belgium	Patients' input in the development of devices and AI solutions.	14:51	15:11
						Abstract Presenter			Abstract Slot	15:11	15:21
						Closing	Both chairs		Q&A and Closing	15:21	15:30
12/06/2024	X-ray of hands and feet in RA, PsA and OA	14:15	15:30	This practical skills session will look at three different cases with several critical decisions are discussed by three experts and the audience.	Practical Skills	Convenor	Christian Dejaco	Austria			
						Chair	Philipp Bosch	Austria			
						Chair	Bayram Farisogullari	United Kingdom			
						Speaker	Lennart Jans	Belgium	Radiographic findings in PsA	14:15	14:25
						Speaker	Margreet Kloppenburg	Netherlands	Radiographic findings in OA	14:25	14:35
						Chair	All speakers and chairs		Discussion of images	14:45	15:30
12/06/2024	CAR T-cells to treat RMDs	14:30	15:15	We will discuss general principles for using CAR T-cell therapies and aim to	What is New (WIN)	Convenor	Tue Wenzel	Kragstrup Denmark			
						Chair	Anastasia Madenidou	United Kingdom			

				understand the future perspectives of CAR T-cell therapy in rheumatology.		Chair	Christophe	Richez	France			
						Speaker	Georg	Schett	Germany	CAR T-cell therapy for inflammatory RMDs	14:30	15:15
12/06/2024	Lupus: what's on the horizon?	15:15	16:00	This session will provide an update on novel treatments for lupus and their clinical applications. Presentations will include new biomarkers for diagnosis and monitoring of treatment, including organ-dominant disease. The delegates will discuss strategies for improvement of early diagnosis, how to avoid disease progression and achieve remission.	How to Treat (HOT)	Convenor	Carlos Enrique	Toro-Gutierrez	Colombia			
						Chair	David	Isenberg	United Kingdom			
						Chair	Raquel	Faria	Portugal			
						Speaker	Laurent	Arnaud	France	Lupus, What is on the horizon?	15:20	15:55
12/06/2024	Difficult Questions in Osteoporosis	15:45	16:15	This session will offer delegates the opportunity to as an expert in the field difficult questions in osteoporosis management	Meet the EULAR Expert	Convenor	Ori	Elkayam	Israel			
						Speaker	Piet	Geusens	Belgium	How to treat osteoporosis	15:45	16:15

				such as "when to stop long term treatment?" or "Combination ? Jaw necrosis?".									
12/06/2024	How to Prevent Infections in Patients with Rheumatic Diseases?	15:45	16:15	This Meet the Expert session will discuss the prevention of infectious diseases among patients with rheumatic diseases.	Meet the EULAR Expert	Convenor	Ori	Elkayam	Israel				
						Speaker	Kevin L.	Winthrop	United States of America	How to prevent infections with patients with rheumatic diseases?	15:45	16:15	
12/06/2024	Sjögren's Syndrome	15:45	16:15	Delegates will learn about the new developments on pathogenesis of Sjögren's and about the currently available and future treatments for the different manifestations of the disease	From Bench to Bedside	Convenor	Xavier	Mariette	France				
						Speaker	Gaetane	Nocturne	France	Meet the Expert: Sjögren's Syndrome	15:45	16:15	
12/06/2024	Taking a Holistic View: Multidisciplinary care in rheumatology	16:30	17:45	This session will advocate for multidisciplinary care whilst highlighting the importance of communication in managing RMDs. Delegates will be able to identify barriers to implement	PARE	Convenor	Elsa	Mateus	Portugal				
						Chair	Dieter	Wiek	Germany				
						Chair	Nele	Caeyers	Belgium				
						Speaker	Daphna	Paran	Israel	Multidisciplinary clinic in rheumatology:	16:31	16:51	

				multidisciplinary care and discuss solutions.						managing RMDs and comorbidities		
						Speaker	Yvonne	Codd	Ireland	Innovative multidisciplinary approach in early inflammatory arthritis	16:51	17:11
						Speaker	NADIA	MALLIOU	Greece	Health Center for RMD Patients: an example from the Hellenic League Against Rheumatism	17:11	17:31
						Abstract Presenter				Abstract Slot	17:31	17:41
12/06/2024	Challenging Patient Journeys: the value of multidisciplinary team care for people with RMDs	18:30	19:45	At the end of this session, delegates will be able to identify roles health professionals in rheumatology have in the rheumatology team setting. They will have learnt about European initiatives that have incorporated health professionals to enhance the capacity and quality of rheumatology care and	Health Professionals in Rheumatology (HPR)	Convenor	Erika	Mosor	Austria			
						Chair	José Antonio P.	da Silva	Portugal	Introduction to the multidisciplinary team care	18:30	18:35
						Chair	Hana	Smucrova	Czech Republic			
						Speaker	Nina	Brodin	Sweden	Multidisciplinary team diversity: The key to success	18:35	18:55
						Speaker	Mike	Backhouse	United Kingdom	Why should our teams be multidisciplinary? A panel discussion	18:55	19:10
						Speaker	Hjördis	Nielsen	Denmark	Why should our teams be multidisciplinary? A panel discussion	19:10	19:25
						Speaker	Khadija	El Aoufy	Italy	Why should our teams be	19:25	19:40

				discussed success stories of multidisciplinary team care in managing challenging patient journeys.						multidisciplinary? A panel discussion			
						Closing	Hana Smucrova	Czech Republic		Closing	19:40	19:45	
12/06/2024	The Gut-Joint Axis	18:30	19:45	In this session, delegates will explore the evidence for the impact of the microbiome on inflammatory rheumatic diseases and consider potential ways to influence this interaction. They will understand the pathway from microbiome over inflammasome to joint inflammation.	Basic and Translational Science	Convenor	Bimba Franziska Hoyer	Germany					
						Chair	Dirk Elewaut	Belgium					
						Chair	Zuzanna Łukasik	Belgium					
						Speaker	Daniele Mauro	Italy	Is it the microbiome?	18:30	18:55		
						Speaker	Eicke Latz	Germany	Is it the inflammasome?	18:55	19:20		
						Speaker	Mario M. Zaiss	Germany	If it's not the gut, is it the nerve?	19:20	19:45		
13/06/2024	Macrophages in Rheumatoid Arthritis: again and again	08:30	09:45	To learn more about origin of pro-inflammatory macrophages in Rheumatoid Arthritis in order to explore new therapeutic targets.	Basic and Translational Science	Convenor	Xavier Mariette	France					
						Chair	Stephan Blüml	Austria					
						Chair	Audrey Paoletti	France					
						Speaker	Gerhard Krönke	Germany	Tissue resident macrophages are the culprits of	08:30	08:50		

										synovial inflammation in RA		
						Speaker	Megan	Hanlon	Ireland	Blood monocyte-derived macrophages are the culprits of synovial inflammation in RA	08:50	09:10
						Speaker	Mariola	Kurowska-Stolarska	United Kingdom	How modifying the balance between pro-inflammatory and anti-inflammatory macrpphages in RA ?	09:10	09:30
						Abstract Presenter				Abstract Slot	09:30	09:40
						Closing	Stephan	Blüml	Austria	Q&A and Closing	09:40	09:45
13/06/2024	How to Manage Pregnancy in SLE	09:45	10:15	In this session the participants will have the opportunity to discuss with an expert about practical aspects of managing pregnancy in patients with systemic lupus erythematosus.	Meet the EULAR Expert	Convenor	Marta	Mosca	Italy			
						Speaker	Catherine	Nelson-Piercy	United Kingdom	Meet the Expert: Pregnancy in SLE	09:45	10:15
13/06/2024	How to Treat Difficult-to-Treat Rheumatoid Arthritis?	09:45	10:15	In this session the expert will discuss the management of difficult-to-treat RA, with the aim	Meet the EULAR Expert	Convenor	Ronald F.	van Vollenhoven	Netherlands			

				of understanding the concept and definition of D2T RA. Delegates will obtain insights in therapeutic possibilities for D2T RA and understand the unmet needs and be aware of research that is currently trying to address these.		Speaker	Jacob M. van Laar	Netherlands	How to treat difficult-to-treat rheumatoid arthritis?	09:45	10:15
13/06/2024	Raynaud and GI Manifestations in Scleroderma	09:45	10:15	This session will review the most frequent clinical characteristics of Raynaud's phenomenon and the gastrointestinal manifestations of scleroderma. Delegates will focus on how to correctly identify these manifestations. We will look at recommendations for the pharmacological and non-pharmacological management of Raynaud and GI manifestations in SSc.	Meet the EULAR Expert	Convenor	Carlos Enrique Toro-Gutierrez	Colombia			
						Speaker	Christopher P Denton	United Kingdom	Raynaud and GI manifestations in Scleroderma	09:45	10:15

13/06/2024	From Child to Adult in One Day: Children and Transition	10:30	11:45	This session will show best practice in transition to adult services and showcase the impact of diagnosis on children and their families whilst addressing the impact of pain and its treatment.	PARE	Convenor	Peter	Boyd	Ireland			
						Chair	Simon	Stones	United Kingdom	Introduction	10:30	10:31
						Chair	Silvia	Aguilera	Switzerland			
						Speaker	Katrin	Lauxtermann	Germany	My experiences as a Transition Peer with the Deutsche Rheuma-Liga	10:31	10:46
						Speaker	Sammy	Ainsworth	United Kingdom	10 Steps to successful transition in rheumatology services	10:46	11:01
						Speaker	Luris	Higuera	Panama	International PARE contrasting view - Transitions in Central and South America	11:01	11:16
						Abstract Presenter				Abstract slot	11:16	11:26
						Closing	Silvia	Aguilera	Switzerland	Roundtable and closing	11:26	10:40
13/06/2024	Hand Osteoarthritis	10:30	11:15	In this session, novel insights into the pathogenesis and treatment of hand osteoarthritis are presented.	What is New (WIN)	Convenor	Caroline	Ospelt	Switzerland			
						Chair	Roberta	Ramonda	Italy			
						Chair	J�r�mie	Sellam	France			

						Speaker	Margreet	Kloppenburg	Netherlands	What is New: Hand Osteoarthritis	10:30	11:15
13/06/2024	Patient Tailored Pain Management in RMDs	11:15	12:00	In this session, individualised approaches to pain management are discussed. Participants learn about the benefits and risks of systemic, local and non-pharmacological approaches to treat pain and get information on when which treatment is most beneficial for which patients.	How to Treat (HOT)	Convenor	Caroline	Ospelt	Switzerland			
						Chair	Annelies	Boonen	Netherlands			
						Chair	Neil	Basu	United Kingdom			
						Speaker	David A.	Walsh	United Kingdom	Patient tailored pain management in RMDs	11:15	12:00

				through 3 rounds. The chairs supervise so the whole quiz runs smoothly.		Speaker	Christopher John	Edwards	United Kingdom	Round 2 - Wheel of fortune	12:10	12:30
						Speaker	Tue Wenzel	Kragstrup	Denmark	Round 3 - Drawing and Finale	12:30	13:00
15/06/2024	Reproductive Health	12:30	13:15	The session is a comprehensive review of issues relating to fertility, pregnancy and reproductive health as they may be encountered in rheumatology practice. Delegates will be aware of the key issues in reproductive health facing patients with RMFs and their health care providers. We will learn about the latest insights into the biology and pathology of reproductive health in patients with RMDs. By the end of the session, we will understand the possibilities and limitations of	How to Treat (HOT)	Convenor	Ronald F.	van Vollenhoven	Netherlands
